## 3D animation HD

(52 x 2 min.)

If animals could talk, they would tell us why they are also the victims of very curious extraterrestrials?

"ALIEN ZOO" is a 3D animated series featuring rampant aliens aboard a flying saucer. They have one single goal: to capture animals to study them. Each episode of 2 minutes is built the same way and tells how aliens are attempting to kidnap an animal species but ultimately fail at the end of the episode. The animal, different in each episode is presented in its natural environment. The aliens arrive in their flying saucer and attempt to capture animals. Unfortunately for them, they will always fail: unfortunately, because of the instinct of survival of animals but also especially because these aliens are not too brilliant. There are 3 main actors in each episode: the aliens that we never see but hear a lot, the saucer full of gadgets sophisticated but not always easy to use and much of the animals, the target prey coveted by aliens motivated but stupid.
