

# ALTERNATE VISIONS

(1 X 80 MIN.) HD

**Alternate Visions**, produced by Chants Libres, the lyric creation company, invites the audience to witness an alternate vision of love. It is a bilingual opera that presents an encounter mediated by cyberspace. Using computer dating as its focus, Alternate Visions addresses the internet's power to create personas and perfection. In a space where musical styles merge, real and virtual universes collide, robotics and virtual skin mingle...what happens to human carnal relations?

Valerie and Richard develop a relationship over the Internet in a virtual 3D environment; they decide to break the ice of cyberspace and meet in person at a high-tech karaoke bar, which is in fact the set of Alternate Visions, a reality television show. At the last minute, they both get cold feet and ask their respective best friends to take their places. Why take the risk? Why change a relationship that is working so well in virtual reality?

Misunderstandings multiply, raising questions around the perception of reality and the culture of identity.
