

An cœur du country

Variety & performance series
(8 x 60 min.) HD

Documentary series of eight episodes placing the renewed enthusiasm for the country in its historical and social context.

Symbol of the American since his emergence in the 1920s, the country is inherent in the culture of French-speaking America, despite its possible deliberate marginality.

To portray the formidable legacy in the heart of country music, this series brings together archives and interviews with hundreds of artists of the Betsiamites Reserve, Louisiana, the rehearsal of the "QUAND LE COUNTRY DIT BONJOUR" tour, of the show "TERRE" marking the 475th anniversary of Gaspé, as well as many country music festivals and celebrations.

Gildor Roy narrates this series by François Savoie and Caramel Dumas. Marc Beaulieu signed the original score.
