In 1898, Henri Béraldi introduced the concept of "Pyrénéisme." It represents an intellectual approach to the mountains, discussing sensitivity through athletic achievements. Over time, mountaineers and writers have developed the Pyrenean philosophy. The Pyrenean enthusiast doesn't merely climb; they feel, narrate, and write. We invite you to explore the philosophy, legends, and mountain stories of the Pyrenees massif. Unprecedented journeys from summits to valleys to grasp the spirit of the Pyrenees. "Pyrénéistes" intertwines mountain stories from the past and present.
