In the fantastical, storybook land of Arbra, in the relics of an old castle, live Jean the Giant and his children, Rose and Olivo. Days are sunny, and family life is full of laughter and song.

But right beneath their feet is a dark, underground world full of unmannerly, mischievous, furry little creatures called The Soussis.

Regardless of where they live, when up is down and down is up, worlds collide and trouble follows. Fortunately, when things get out of hand, friends are there to help. Mosa, the kind fairy waves her magical wand, and M. Ding Dong always means well.

1, 2, 3 ... Géant is a delightful series in which Giants and little people alike learn how to celebrate their differences, discover their strengths, and get along with their neighbors in a topsy-turvy world.
